

Military Mobility Package

*Creating an EU Military Mobility Area by 2027 –
a step towards a 'Military Schengen'*

November 2025

Removing regulatory barriers

- Clear process for cross border movements in **max. 3 working days**.
- **One single permission procedure for all 27 Member States**.
- **Streamlined** customs formalities and military transport rules.

Creating an emergency framework - EMERS

- In case of significant increase of military movements needed.
- **Fast-track procedures and priority access** to infrastructure.
- **Simplified notification-based system** (no more permissions).

Readiness of dual-use infrastructure

- **€17.65 bn** proposed under next Connecting Europe Facility (2028–2034) for military mobility.
- **~ 500 hotspot projects and targeted investments** to remove chokepoints along **priority corridors**.
- **Resilience toolbox**: identify, upgrade & protect strategic infrastructures.

Pooling and sharing capabilities

- **Military Solidarity Pool** for shared transport and logistics capabilities.
- **European Competitiveness fund (2028–2034)**.
- **A single Military Mobility Digital Information System**.

Stronger governance & coordination

- **National Coordinators for Military Transport**.
- **Enhanced Trans-European Transport Network TEN-T Committee**.
- **Military Mobility Transport Group**.
