Cybersecurity and systems for improved resilience

DURATION OF THE PROJECT:

36

TYPE(S) OF ACTIVITIES:

Studies, Design, Prototyping, Testing, Qualification,
Increasing efficiency

ESTIMATED TOTAL COST:

€ 29,687,302.49

MAXIMUM EU CONTRIBUTION :

€ 26,936,331.94

SHORT DESCRIPTION OF THE PROJECT:

FACT will create a common toolbox for cyber physical testing with a common architecture and environment.

The project FACT will deliver a new European capability for cyber physical testing and verification of equipment based on two disruptive and unique assets: an advanced cyber physical test range capability and a European wide federated approach. The project will ensure an improved and coordinated cyber security focus, enhancing performance and productivity, and reduce risk and cost compared to stand alone Cyber range environments.
