

EPC2

EPC, the European class of naval vessel

SELECTED PROJECTS EUROPEAN DEFENCE FUND (EDF) 2023

CALL TITLE:

Development actions focused on naval combat

TOPIC TITLE:

Modular and multirole patrol corvette

DURATION OF THE PROJECT:

48 months

TYPE(S) OF ACTIVITIES:

Studies, Design, System prototyping, Testing, Qualification, Certification

ESTIMATED TOTAL COST:

€ 288,257,386.29

MAXIMUM EU CONTRIBUTION :

€ 154,500,00.00

SHORT DESCRIPTION OF THE PROJECT:

The goal of EPC2 is to reach a certified design of an innovative, modular, flexible, interoperable, green, multirole vessel, enabling the European navies to face the 21st century challenges.

Based on the initial design funded in 2021 by EDF, EPC2 will reach a certified design and produce a platform prototype for each one of the two versions considered: Full Combat Multipurpose and Long Range Multipurpose. The project will leverage the integration of innovative solutions, technologies and systems to enhance the efficiency and the capabilities of the vessel at sea (2 prototypes to be tested in harbour) and on the development of a land-based test facility in order to de-risk and qualify systems and technological bricks.
