

Data Access: Overview

© ESA

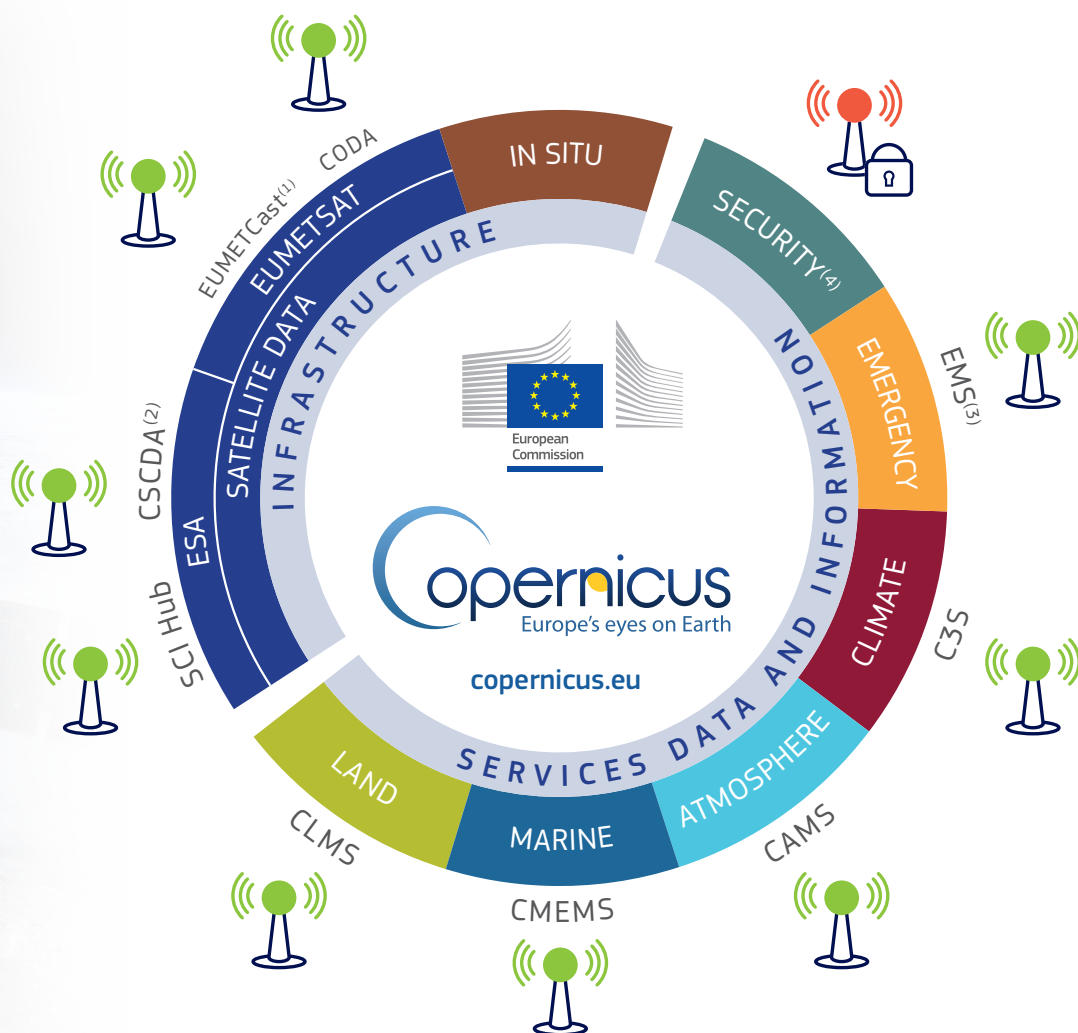

Copernicus is the European Earth Observation and Monitoring Programme

It is a constellation of satellites making millions of daily observations. It builds on a global network of thousands of land-, air- and marine-based sensors to create the most detailed pictures of earth.

The vast majority of data and information delivered by the Copernicus space infrastructure and the Copernicus services are made freely available and accessible to any citizen and any organisation around the world.

Copernicus provides knowledge, but it all starts with data.

The different data access points are mentioned below.

⁽¹⁾ Access subject to conditions, see page: www.eumetsat.int/website/home/Data/DataDelivery/EUMETCast/index.html

⁽²⁾ Access subject to conditions, see page: spacedata.copernicus.eu/web/cscda/data-access

⁽³⁾ Service Activation by authorised users: emergency.copernicus.eu

⁽⁴⁾ Access restricted, see page: www.copernicus.eu/main/security

Data access URLs

Satellite Data

SCI Hub - Sentinel Scientific Data Hub

Free, Full and Open Data Policy

Implemented by  **ESA**

Data access URL: scihub.copernicus.eu

EUMETCAST

Access requires specific equipment

Implemented by  **EUMETSAT**

Data access URL: www.eumetcast.com

CSCDA - Copernicus Space Component Data Access

Access limitations apply

Implemented by  **ESA**

Data access URL: spacedata.copernicus.eu

CODA

Free, Full and Open Data Policy

Implemented by  **EUMETSAT**

Services Data and Information

CAMS - Copernicus Atmosphere Monitoring Service

Free, Full and Open Data Policy

Implemented by  **ECMWF**

Data access URL: atmosphere.copernicus.eu

CMEMS - Copernicus Marine Environment Monitoring Service

Free, Full and Open Data Policy

Implemented by  **MERCATOR OCEAN**

Data access URL: marine.copernicus.eu

C3S - Copernicus Climate Change Service

Free, Full and Open Data Policy

Implemented by  **ECMWF**

Data access URL: climate.copernicus.eu

CLMS - Copernicus Land Monitoring Service

Free, Full and Open Data Policy

Implemented by  **European Environment Agency** and  **European Commission**

Data access URL: land.copernicus.eu

EMS - Emergency Management Service

Service Activation by authorised users

Implemented by  **European Commission**

Data access URL: emergency.copernicus.eu

Security

Access restricted
