## Emerging Game Changers

PADR-FDDT-EMERGING-03-2019

**NAME OF THE PROJECT** Innovative Positioning system for defence in GNSS-denied areas

**SHORT NAME** OPTIMISE

**GRANT AGREEMENT NUMBER** 884134

### OBJECTIVE OF THE PROJECT

This project is about autonomous positioning, navigation and timing and proposes a novel architecture to fuse data from different sensors and signals. The project should improve positioning, navigation and timing in areas without access to Global Navigation Satellite Systems (GNSS).

**PROJECT DURATION** 24 months

**STARTING DATE** 1 April 2021

**GRANTED EU CONTRIBUTION** € 1.499.400
