SHORT DESCRIPTION OF THE PROJECT:

FAMOUS2 will enhance all-terrain vehicles, light armoured vehicles and main battle tanks through developments and upgrades.

The project “European Future Highly Mobile Augmented Armoured Systems 2” (FAMOUS2) aims at maximizing synergies, standardization and interoperability of armoured vehicles to address highly demanding requirements, while introducing innovation and promising new technologies and concepts. The project is building on the ongoing EDIDP 2020 FAMOUS project, thus continuing the work begun during this precursor project. In this context, FAMOUS2 develops next generation armoured platforms and upgrades existing platforms, such as future all-terrain vehicle (ATV), light armoured vehicle (LAV) and Main Battle Tank (MBT).
