ASAP RESULTS

BOOSTING AMMUNITION PRODUCTION

The Regulation in Support of Ammunition Production (ASAP) aims at reinforcing and ramping up ammunition production across Europe. The ASAP work programme has launched calls for proposals for the production of powder/propellant, explosives, shells, testing capacity, and missiles. It has an overall allocated EU budget of around €500 million. With the expected co-funding by industry, the overall budget will exceed €1.5 billion, with new production capacities all across Europe.
