### SHORT DESCRIPTION OF THE PROJECT:

**EDOCC will provide a virtual platform to increase collaborative services on the battlefield.**

The project “European Defence Operational Collaborative Cloud” (EDOCC) will create a virtual platform that will increase the interoperability, efficiency and resiliency of military operation. This will strengthen collaborative services on the battlefield. The project will study, design and conceptually validate the virtual platform and develop the first version of a services catalogue while identifying appropriate standards and technologies for high performance and interoperability.
