

dTHOR

Digital Ship Structural Health Monitoring

SELECTED PROJECTS EUROPEAN DEFENCE FUND (EDF) 2021

CALL TITLE:

Smart ships

TOPIC TITLE:

Ship structural health monitoring

DURATION OF THE PROJECT:

36 months

TYPE(S) OF ACTIVITIES:

Integrating knowledge; Studies; Design

ESTIMATED TOTAL COST:

€ 14,500,000.00

MAXIMUM EU CONTRIBUTION :

€ 14,500,000.00

SHORT DESCRIPTION OF THE PROJECT:

dTHOR will develop the next generation of a predictive Ship Structural Health Monitoring system.

The project “Digital Ship Structural Health Monitoring” (dTHOR) will develop a system based on innovative utilization of large amounts of load and response measurements from robust and advanced sensors, a digital framework complying with recognised open standards for data exchange, and hybrid analysis and modelling which combines physics-based and data-driven models. dTHOR will consolidate end-users military operational requirements based on improved battle damage and structural integrity assessment, reduced hydro-acoustic signatures, and more accurate operation of weapon systems.
