to the

Commission Implementing Decision

on the financing of the European Defence Fund established by Regulation (EU) 2021/697 of the European Parliament and of the Council and the adoption of the work programme for 2024 - Part I
1. **Introduction**

The EDF is implemented through annual work programmes from 2021 to 2027.

The adoption of the 2023 EDF work programme - Part II is subject of a separate financing decision.

The limited purpose of this 2024 EDF work programme-part I is to bring budget complement to some actions described in detail in the 2023 EDF work programme - Part II to enable the launching in 2023 of calls for proposals with indicative amounts higher than the ones possible on the sole basis of 2023 appropriations.

The second part of the 2024 work programme will be subject of a separate financing decision to be adopted in due time later in the year with new actions which will then be detailed.

The list of *calls for proposals* and associated *Topics* addressed in this 2024 work programme - Part I is defined in section 3.

2. **Legal Basis**

All actions that will be funded under this programme have their legal basis in Regulation (EU) 2021/697 (EDF Regulation).

3. **Actions Implemented under the 2024 Work Programme - Part I**

This section lists the scope of the *calls for proposals* and associated *topics*, as well as with regard to the implementation of a *framework partnership agreement*, together with their indicative budget, as resulting from a discussion with the EDF programme committee made of representatives from the Member States and associated countries.

Management mode:
As per Article 8(1) of the EDF Regulation and unless otherwise provided for in the present work programme, the actions set out in this work programme shall be implemented in direct management by the Commission.

By way of derogation, in accordance with Article 8(2) of the EDF Regulation, specific actions may, in substantiated cases, be carried out under indirect management by bodies as referred to in point (c) of Article 62(1) of the Financial Regulation, for example in case of complex actions where a project manager has been appointed by Member States, taking into account in particular the complexity of the action and the experience of the proposed body.

The change of management mode set in the present work programme will be assessed after the selection of proposals retained for funding and be subject to the prior assessment of the bodies in accordance with Article 154 of the Financial Regulation in order to ensure the protection of the financial interest of the EU. The responsible Authorising Officer is authorised to conclude a contribution agreement with entities that have satisfactorily passed the priori assessment referred to in Article 154 of the Financial Regulation.
